One of the family members is a qualified teacher who will give from 3 to 5 hours a day of individual teaching in their home. Outside of the lessons, from breakfast to bedtime, you live and eat with the family in their home, always speaking their language, never your own. You live and are totally immersed in the culture and family life of your chosen country or you may choose our Online Study Abroad programme

*The best point of this programme is not only that you can study about grammar at the table, but also that you can go and learn about some castles with your own eyes! I had a wonderful time with the teacher and family in England. I highly recommend this programme to everyone! Extremely Satisfied."*
